Maths	<p>Through practical activities we will be working on our Early Learning Goals in Number and Shape, Space and Measures.</p> <p>Number Early Learning: Children count reliably with numbers from one to 20, place them in order and say which number is one more or one less than a given number. Using quantities and objects, they add and subtract two single-digit numbers and count on or back to find the answer. They solve problems, including doubling, halving and sharing.</p> <p>Shape Space and Measure Early Learning: Children use everyday language to talk about size, weight, capacity, position, distance, time and money to compare quantities and objects and to solve problems. They recognise, create and describe patterns. They explore characteristics of everyday objects and shapes and use mathematical language to describe them.</p>					
English	<p>Throughout the year we will be working on our Early Learning Goals Reading and Writing.</p> <p>Reading Early learning Goal: Children read and understand simple sentences. They use phonic knowledge to decode regular words and read them aloud accurately. They also read some common irregular words. They demonstrate an understanding when talking with others about what they have read.</p> <p>Writing Early Learning Goal: Children use their phonic knowledge to write words in ways which match their spoken sounds. They also write some irregular common words. They write simple sentences which can be read by themselves and others. Some words are spelt correctly, and others are phonetically plausible.</p>
